

Roads Update 9/28/18

Thank you for your patience in the coming weeks as we embark on the long-awaited road repaving project at Avocado Estates. After evaluating the roads reserves, and acquiring additional money through the special assessment we have determined it is appropriate to begin the project on 10/1/18. The project will last approximately 3 weeks and additional impact to your immediate street will be communicated directly to you through Eagle Paving. The contact information for the site superintendent, as well as a general timeline is available on the attached flyer from Eagle Paving. Should you have any concerns that cannot be answered by the on-site superintendent during the project, please contact Curtis Management.

Finally, if you have yet to pay your special assessment please do so by 10/18/18 to ensure the project is funded appropriately.
